ROAA SHATTNAWI

Web Developer | Software Engineer

👤 Profile

Dynamic and detail-oriented Front-End Developer with over 7 years of experience in web development, proficient in translating design mockups into full-fledged web applications. expertise in both front-end and back-end development, specializing in React.js, HTML5, CSS3, SASS, and Bootstrap, and building custom solutions using REST API. Demonstrated success in managing complex projects, leading development teams, and delivering scalable, high-performance solutions. Skilled in brand creation and management, with a proven ability to build and maintain digital brands across WordPress, Shopify, Wix, Opencart, Drupal, and Craft CMS platforms. Seeking to apply my comprehensive technical skills and leadership experience in a Full-Stack Developer role to drive innovative web solutions and provide outstanding user experiences.

💼 Work Experience

12/2019 – Current

Software Engineer
GTM, Istanbul (Remotely)
- Convert complex Figma designs into fully responsive web pages using HTML5, CSS3, JavaScript, React.js, and Bootstrap for responsive design.
- Developed and managed over 15 websites using WordPress, Opencart, and Drupal, increasing client web presence by 50%.
- Collaborated with back-end developers to integrate APIs and ensure smooth functionality, using REST API and AJAX for data handling.
- Worked closely with the team to develop a full web-based system using CodeIgniter, contributing to both front-end and back-end development and database management with MySQL and PostgreSQL.

09/2023 – 08/2024

Cybersecurity Intern
WUST, USA
- Conducted security assessments for airports and schools using Nmap and Wireshark, identifying vulnerabilities and analyzing network traffic.
- Performed ethical hacking with Metasploit and Kali Linux, simulating attacks to find system weaknesses.
- Assisted in investigating network breaches using Autopsy and provided recommendations for improved security.
- Helped secure databases by managing structures in MySQL and PostgreSQL.
